

Logistics Services

Reliable Movement. Controlled Execution. Business-Ready Delivery.

At **Relocentric**, logistics is more than transportation. It is a structured service built to move critical assets, project materials, and business infrastructure with speed, visibility, and accountability.

We support companies with specialized logistics solutions across **IT Logistics**, **ITAD Logistics**, **Import/Export Logistics**, and **Office Capex Logistics** — helping clients manage office transitions, IT movements, asset disposition programs, and infrastructure deployments without unnecessary complexity.

Whether you are moving live IT equipment, retiring end-of-life assets, importing project materials, or deploying office Capex across locations, Relocentric provides the coordination and execution needed to keep your operations moving.

IT Logistics

We manage the secure movement of IT equipment including laptops, desktops, servers, storage, networking hardware, and workplace devices.

Our IT logistics services are designed for organizations that need careful handling, planned movement, and better control over business-critical equipment during office moves, IT refresh cycles, rollouts, consolidations, and internal transfers.

Scope includes:

- IT asset pickup and delivery
 - Packing and movement coordination
 - Office-to-office IT transfers
 - Deployment and redistribution support
 - Secure handling of sensitive equipment
 - Multi-site movement planning
-

ITAD Logistics

Our ITAD logistics services support the controlled collection and movement of retired IT assets as part of a secure asset disposition process.

We help businesses handle end-of-life IT equipment with better visibility, serialized control, and process discipline, supporting downstream activities such as asset auditing, data destruction, recycling, remarketing, and buyback.

Scope includes:

- Pickup of retired IT assets
 - Consolidation and transfer logistics
 - Serialized movement control
 - Collection scheduling across sites
 - Logistics aligned to ITAD workflows
 - Support for secure chain-of-custody handling
-

Import / Export Logistics

Relocentric supports import and export requirements for office, infrastructure, and IT-related shipments with structured coordination and practical execution support.

We help clients manage cross-border movement through documentation support, liaising, freight coordination, customs clearance support, and shipment planning.

Scope includes:

- Import and export coordination
 - Documentation support
 - Customs clearance liaising
 - Freight forwarding coordination
 - Shipment planning and tracking
 - Business and project-linked cargo movement
-

Office Capex Logistics

Our office Capex logistics services are designed to support the movement and deployment of furniture, fixtures, project materials, office infrastructure, and other capital assets required for workplace setup, expansion, or reconfiguration.

We make sure materials arrive at the right place, in the right sequence, and in line with project timelines.

Scope includes:

- Movement of furniture and fixtures
 - Delivery of fit-out and project materials
 - Deployment scheduling
 - Staged delivery coordination
 - Site-ready logistics planning
 - Support for office setup and expansion projects
-

Why Businesses Choose Relocentric

One Partner Across Multiple Logistics Needs

Instead of managing separate vendors for IT movement, retired assets, imports, and Capex materials, clients work with one coordinated team.

Execution Aligned to Business Operations

We plan logistics around project timelines, office readiness, operational continuity, and delivery dependencies.

Controlled Asset Handling

From IT equipment to end-of-life assets and workplace materials, we bring process discipline to every movement.

Support Beyond Transportation

Our logistics model connects with broader services such as relocation, procurement, fit-out, ITAD, and office setup — creating a smoother overall execution experience.

Where Our Logistics Services Add Value

Relocentric logistics solutions are ideal for:

- Office relocations
- IT refresh and deployment programs
- Asset consolidation projects
- IT asset disposition initiatives
- New office setup and expansion
- Import/export-linked business operations
- Multi-location corporate movement requirements

Our Approach

We focus on making logistics more organized, more visible, and easier to manage for our clients.

From the first pickup to the final delivery, our team works to ensure:

- Better coordination
- Reduced movement risk
- Timely execution
- Clear accountability
- Smoother project flow

Move Critical Assets with Confidence

At Relocentric, we help businesses move what matters — securely, professionally, and with full coordination.

From **IT Logistics** and **ITAD Logistics** to **Import/Export** and **Office Capex Logistics**, we deliver structured logistics services built for modern business environments.

Talk to Relocentric about your next logistics requirement.
